2025 H2 SPIF: Assessments

In today's digital landscape, organizations face a constant barrage of evolving cybersecurity threats. Safeguarding critical assets, sensitive data, and maintaining business continuity has never been more important.

Thrive's evaluation standards create a robust foundation to support healthy networks and proactive cyber risk mitigation. Let a Thrive expert assess your client's network and provide a no-commitment improvement recommendations for their business.

Any partner that sells 2 assessments to new logo clients by December 30, 2025, will receive bonus payment of \$5,000.

Cybersecurity Risk Assessment, \$15k

Thrive's Cyber Security Readiness Assessments evaluate cyber security posture and risk mitigation tools against the Center for Internet Security's (CIS) 18 control areas to provide a comprehensive picture of the client's current risk profile while developing a strategic roadmap for the future.

IT Operations Assessment, \$20K

Monitoring the health of your network is an essential part of maintaining business continuity and productivity. Similar to a routine checkup with your physician, an IT Operations Assessment ensures that your client's business goals are appropriately aligned with the technology required to meet those goals.
