

## Why We're Different

At AppSmart, we make working in the cloud easy. We offer end-to-end cloud services and support to companies of all sizes. Our Microsoft and Google certified cloud engineers partner with you, either acting as your entire IT department, or as a cloud-focused extension of your existing team.

“ AppSmart helped us go beyond email migration. They helped architect our network and our active directory, which in turn helped us increase our security.”

**RICH SANTOS**  
Director of IT - Participant Media

### A Team of Experienced Experts You Can Trust

Cloud technologies have transformed the way companies do business. Today, with the right tools, employees can securely access information and collaborate from virtually anywhere. However, even for companies with large IT departments, implementing and managing new cloud technologies can be a real challenge. With endless applications to choose from and the risks of data loss and downtime, it's easy to get overwhelmed.

#### Let's Create your Cloud Strategy

From specific applications to a migration schedule, we'll create a plan to meet your organization's unique needs and goals.

#### Ongoing Team Training

Training after deployment isn't commonly offered by cloud services providers. To fully realize the potential and value of your new tools, we're here with on-demand and forward-thinking resources.

#### Unlimited Support 24/7

During and following deployment, every AppSmart plan comes with unlimited, North America-based technical support 24/7, 365 days a year.

#### Your One Stop Cloud Shop

With 1000+ solutions, a leading cloud services engineering team, consolidating billing, and unlimited training and support, we have you covered no matter what challenge you're facing. AppSmart is your single source for the most top quality cloud experience.

#### Simple, Consolidated Billing

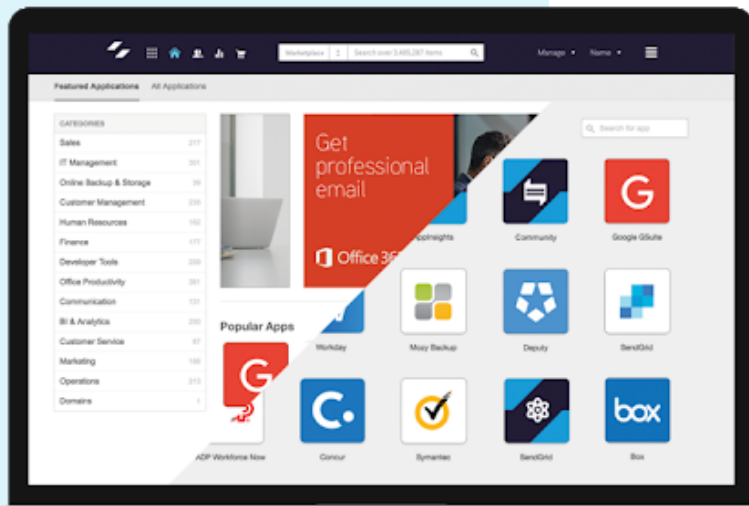

Time spent sorting through invoices is time lost. Our stellar accounting team ensures one monthly transaction keeps all of your cloud applications running smoothly.

#### Zero Data Loss, Zero Downtime

Working with thousands of customers, we've refined our onboarding and implementation processes to ensure a smooth experience. You'll be up and running in days, not months.

## Key Solution Offerings

AppSmart provides managed cloud services featuring thousands of the products you know, trust, and depend on.

When I have a happy customer like CKC, I am happy. That's my ultimate goal. I get to provide a solution to a customer who has need, that not only meets his needs, but exceeds his expectations. And that is definitely what happened with AppSmart."

**NANCY RIDGE**

Executive Vice President, Telecom Brokers
